

Summer Fun @ Morganton Day School's

Young Explorer's Academy

June 21st - June 25th

YEA CLASSES

Am Classes (9-12)	Pm Classes (1 - 4)
<p>◇ Oh, Creative You! (Pre-K – Rising K) What do you get when you mix a variety of materials, a pinch of guidance, and a heaping of 4 and 5 year old creativity? You have a recipe for some awesome creations. This class will stir up the little artist / creator / inventor within any child. Instructor: TBA Location: MDS Cost: \$95.00</p>	<p>◇ FILM FUN (Rising 6th - 9th grade) We start by getting to know different elements involved in making a movie: the script, the camera, costumes and props, etc. We'll play theater games, and talk about what we like to see when we watch a movie. Then we will begin creating <i>our</i> movie. We will think of fun characters we'd like to be, and work together to create the story. A script is then written based on the kids' ideas, and shooting begins! The rest of the session is spent making our movie! Everyone takes turns acting, directing, using the camera, and helping with props and costumes. At the conclusion of the session, we will have a premiere party to watch our movie on the big screen. Every participant receives a copy of the movie on DVD. Instructor: TBA Location: MDS Cost: \$95.00</p>
<p>◇ Ruins and Relics(Rising 6th - 9thgrade) Digging through the past? No, digging to learn about the past! This is an opportunity to participate in a local field school. Students will learn more about local history, as well as what it is like to work as an archaeologist. Instructor: Dr. Moore and archaeology students Location: Meet @ MDS and travel to the Berry site. Cost: \$95.00</p>	
<p>◇ CREATIVE IMAGES: DIGITAL PHOTOGRAPHY (Rising 6th - 9th grade) Ever wonder how professionals do it? If you enjoy where the action is, the outdoors, or like to see the world through a different <i>lens</i>, come join the fun on this explorative of digital photography! Discover the functions of a digital camera and editing software by learning to program your camera and practicing advanced editing techniques by using Adobe Photoshop to create professional prints and altering your photos. Sharpen observation skills and examine image composition. Then hit the pavement to build your portfolio with nature photography-macro shots, portraits – not just for weddings and senior pictures, and photojournalism – telling a story through photos. Fun and creative photo games will keep us more than laughing all week! <i>(Students provide a digital camera and USB drive.)</i> Instructor: Mr. Gallagher Location: MDS Cost: \$95.00</p>
